A car that's sure of itself, so that you can be certain of its performance

redefined

At Hyundai, the pursuit of quality defines everything we do, and nowhere is this more true than in the new Hyundai Coupe *SIII*. It is a highly original and individual vehicle, created to set new standards in design, performance and value. The car some thought couldn't get any better is now the car other Coupes want to be.

Take a look at the front of the new Hyundai Coupe *SIII* and you'll notice how the headlights, bumper and grille have been remodelled to look even more desirable. To the side, we've removed the 'shark' gill vents and replaced them with a classic sports version that demands your attention, whilst at the back, the exhaust has a new tail pipe profile to accentuate the overall impact of the car. In addition, two new stunning alloy wheel designs are available with a 16" design on the 1.6, and 17" design on the 2.0 and 2.7 V6 models. To make it as cool to drive as it is to look at, we have upgraded to climate control from air conditioning (2.0 and 2.7 V6 only).
